

Raymond School District Policy - KIA

POLITICAL CAMPAIGN MATERIALS

All employees shall be encouraged to exercise their constitutional rights as citizens, but they shall not involve their schools in political campaigns. Campaign literature supporting one or more candidates shall not be distributed within the schools or on school buses by pupils, teachers, or others; nor shall campaign posters be displayed at or within the schools. Customary political activity, however, may be expected on election days at schools when these buildings are used as polling places.
