

Raymond School District

Strategic Plan

2023-2026

Approved by the Raymond School Board January 18, 2023

**Update on Parent and Community
Engagement
June 14, 2023**

Dear Raymond School District Staff, Parents and Community Members,

On January 18, 2023 the Raymond School Board approved the strategic plan for the Raymond School District (RSD) for the next three years. This process started in the summer of 2022 and included a team of teachers, support staff members, administrators, parents and a school board member. This team came together to identify the core values we seek to develop in our RSD students.

The purpose of our strategic plan is to clearly define what we as a school district and community want to provide for and instill in our students. The committee identified four areas for specific improvement:

Districtwide consistency. While each building has its own identity and grade levels, we realize that we need to be consistent in specific areas. The committee identified, communication, certain processes, expectations and accountability.

The second area is culture and climate. The committee sees that as an area of improvement across the district and looked at ways to improve the culture and climate.

The third area was universal supports for all students in academic and behavior supports and expectations. The committee worked on identifying these supports and outlining expectations.

Finally, the committee identified parent and community engagement as the last focus area. The committee outlined plans to increase engagement among the schools and community.

This strategic plan is more than just an approved plan. It is our commitment and promise to our students to provide them with an educational experience that will have a positive and meaningful impact on their lives. I along with the committee encourage you to read our Raymond School District Strategic Plan and bring forward questions you might have.

Terry Leatherman,
Superintendent of Schools

Our Strategic Planning Process

In June 2022, in support of the strategic planning process, the Raymond School District Administrative Leadership Team participated in a daylong summit. The Leadership Summit was designed to bring leadership together and have a dialogue about the present challenges of the school district along with a look ahead to future opportunities that need to be addressed in the Strategic Plan.

The Leadership Team members reviewed the existing strategic plan and decided a new strategic plan was needed to set a new direction for the school district over the next 1- 3 years.

The following priorities, or Focus Areas, were identified for the strategic plan:

- 1. Universal supports for all students in both academics and behavior – Tier 1 Instruction**
- 2. Culture and Climate**
- 3. Parent and Community Engagement**
- 4. Districtwide consistency in Communication, Process, Expectations and Accountability**

In July 2022, a Strategic Planning Committee was formed and immediately set out to identify opportunities associated with the Focus Areas. These Focus Areas guided the development of a prioritized list of goals and strategies that make up the plan.

The Strategic Planning Committee was made up of members of the school district and the Raymond community and brought multiple perspectives on a variety of issues.

As part of the strategic planning process, the committee developed a Portrait of a Graduate to serve as an aspirational and descriptive vision of outcomes for all graduates from the Raymond School District. The competencies and characteristics identified in the Portrait of a Graduate must be valued by the larger school and Raymond community. A series of surveys were conducted with teachers, parents, students and Community members in the fall of 2022 to help identify the most important elements to include in the Portrait of a Graduate. In December 2022, the Committee completed the 2023-2026 Strategic Plan.

The Raymond School Board and District would like to thank the students and community who provided valuable feedback and ideas for the creation of this plan and to the Strategic Planning Committee members for their time and energy in working to produce a plan that will serve the district.

Raymond School District Portrait of a Graduate

Our Portrait of a Graduate serves to represent our community's desired outcomes for graduates that will best prepare them to enter into a rapidly changing, increasingly diverse, and interconnected world. This plan is organized around this common definition of graduate success. Our Portrait of a Graduate will be made actionable and brought to life through the goals and strategies in our strategic plan.

A Raymond Graduate is:

Self-motivated and resilient; motivated by intrinsic needs, has a strong work ethic, strives to meet and exceed their personal goals and can persevere through unexpected challenges in day to day life.

A critical thinker; will problem solve, question and self-reflect when making decisions.

An active participant; knows how to be an active listener; an effective communicator in multiple ways and is able to collaborate with others to achieve mutual outcomes.

Knowledgeable; has a strong foundation in all academic areas, including career ready technical skills, and knows how to apply it meaningfully to a variety of situations.

A good citizen and empathetic; is an active part of the community, and recognizes the feelings and needs of others.
