VI. Public Hearing: As per RSA 189:68 II in regards to information transmitted through school-issued ID badges as part of the PBIS Rewards Program and for school building access.

*RSA 189:68 II reads "II. No school shall require a student to use an identification device that uses radio frequency identification, or similar technology, to identify the student, transmit information regarding the student, or monitor or track the student without approval of the school board, after a public hearing, and without the written consent of a parent of legal guardian of an affected student which may be withheld without consequence."*

*This hearing is scheduled to provide public comment regarding the use of school-issued ID badges with the ability to transmit certain pieces of data.*

*ID badges at LRES and IHGMS are used as part of the PBIS Rewards program. When a staff member learns of or witnesses a student engaging in positive behaviors, the staff member can swipe the student's ID card to transmit that student's name into the PBIS Rewards program so that student can receive a prize.*

*At RHS, student badges are not used to transmit information. They are swiped by students to access the front doors of the building. However, the technology allows the district the potential to receive information about that student's location, etc. Though the district does not exercise this option, because the option exists it is subject to this public hearing.*
