

Grade 8, Grade 9, Grade 10, Grade 11	No masks
Grade 9	I think maybe everyone should be recommend to get the 1st shot at least so we can stop with the mask and go back to normal
Grade 9	No masks no social distancing
Grade 9	I think that the school should open up fully. Students should have an option to wear a mask to their own preference.
Grade 9	Maybe next year you could have the teachers be a little more understanding for not finishing work on time because some people are busy.
Grade 9	Have more school work be on paper because it takes twice as long to do the assignments in google. The google Chromebooks do not work as well as every computer that I have at home (including phones and tables). I do like being able to email the teachers throughout the day to ask questions about the actual assignments, and I hope that will continue.
Grade 9	I think the dress code is a big issue. I understand for girls to cover there private arts. But I feel as if covering a bit of stomach is too strict. Showing a little bit of skin will not distract boys and I feel like, people should be able to wear what they please.
Grade 10	I believe that we should be doing what we are doing now. depending how well covid is being contained, maybe no masks towards the end of the year. I believe we should at least start the year off with masks, unless there is little to no covid cases by that time.
Grade 10	I think that if COVID-19 calms down in our town we should lift the school mask mandates but just to be safe still require morning health screenings.
Grade 10	I agree with the whole Fall Reopening plan i think it is good to also have a remote or none remote option.
Grade 10	Well the mask mandate is up to the school board. I would prefer to reopen because I would want to work on my mental health and COVID restriction have obviously been making it worse.
Grade 10	no masks if fully vaccinated, full in person school for everyone
Grade 10	back to 2 days
Grade 10	I think depending on what covid id like by then, masks should be optional to those who want/dont want to wear them
Grade 10	More sports
Grade 10	We don't need a mask. I feel like people should be pushed to get the vaccine if they don't want to wear their mask.
Grade 11	I think that we should all be required to get the covid shot and go maskless
Grade 11	I would like to still have options to either go remote/hybrid learning.
Grade 11	I hope there is still a remote or hybrid learning options there for us.

Grade 11	I think the mask should be used for those who want to and for other that prefer not to it should be are choice I feel as if students would respect the teachers better if they weren't always asking for the masks to be pulled up sometimes resulting in the student walking out of class, skipping or just not enjoying being in the school.
Grade 11	I think students should have the choice to be either fully remote or fully in school because some students may not be comfortable coming back yet.
Grade 11	students should be required to wear a mask if they are not fully vaccinated. if students are fully vaccinated it should be optional. teachers should also have it be optional.
Grade 11	i think next falls reopening plan should be more flexible. i think you should have the choice to wear a mask. many people are choosing to get the vaccine. they are protecting themselves with that, so i don't see the need to keep the masks mandatory. if people don't want the vaccine i don't think you should force those who don't to continue wearing this mask. allow us to make our own choices. i truly feel like we are hurting our immune system more in the future because we are not becoming immune to anything at this point.. i understand the seriousness of covid-19 but i truly think people should get the option to wear this mask just as they are with getting the vaccine. i also think we should get our circle lunch tables back. as a student here i know many other students who appreciate the administrations hard work to protect us, but we want highschool back. it's a huge step and we probably will never get there. but holding us back is only hurting our only highschool experience we have. please don't take offense to this, we are all just tired of it. i know everyone is, but it's one step at a time and i think giving us the choice to wear our mask or not would make people much happier. we can't keep hiding, and taking our last few years of highschool away is not fair. please keep this anonymous.
Grade 11	Personally i think the mask should be optional. No one wears them correctly anyways and our cases are low in schools. This way the people who don't wanna wear them don't have to and the people who don't feel comfortable wears their mask. Although i do believe that the harassment involved with the people who choose to wear the mask will be super high i think its better to give them the choice. As well as most middle and high school students will be vaccinated.
	<p>As a student, I recommend giving the upcoming freshmen an introduction to high school. Something to prepare them for what they might see when they come up. The freshmen we had this year, didn't get much if anything at all. Covid did have an effect on that, but they were failed in that department because they were left behind.</p> <p>One another note, we should have something for the whole school, whether it's one big online assembly or something we do outside. But either way, I think that it would be a great idea to have something we do as one school, kind of like a welcome back!</p> <p>I know that everyone has been very mixed up and this year was a mess, but no one really cared that much this year, especially not about students. At least, that's how it felt all year. We try in school and when we do good we are congratulated. But when we are not doing well, we are ignored and brushed off, as if no one cares whether you're doing okay or not.</p> <p>That brings me to mental health. I liked how we had those small events regarding mental health, but it was only made a bigger thing when it's was mental health awareness month. When in reality, that should always be something talked about or talked about. As for what we can do to better that, I really think that the best way to raise awareness is by talking about it and honestly, stickers are always fun to wear!</p>
