

Raymond School District Policy – IHBAA-R

SPECIAL EDUCATION EVALUATION PROCEDURES

1. Request for Initial Evaluation

- a. Consistent with its child find and parent/guardian consent obligations, the district responds promptly to requests initiated by a parent/guardian or public agency for an initial evaluation to determine if a child is a child with a disability.
- b. Upon receiving a request from a parent/guardian or public agency for an initial evaluation, the district designates a team to determine whether an initial evaluation will be conducted.
  - (1) The district team includes the parent/guardian and at least two professionals, at least one of whom is a specialist knowledgeable and experienced in the evaluation and education of children with disabilities.
    - (a) The team may make the decision to evaluate with or without a meeting.
    - (b) The district documents team members' input, including parent/guardians, whether or not the district convenes a meeting.
- c. If a meeting is held, the district invites parent/guardians to participate.
- d. If the district agency refuses an evaluation requested by the parent/guardian, the district provides the parent/guardian with prior written notice of its refusal to conduct an evaluation.
- e. The district acknowledges the parent/guardian's rights to challenge the district's refusal to conduct an evaluation.

2. The initial evaluation consists of procedures:

- a. To determine if the child has a disability; and
- b. To identify the child's educational needs.

3. The district conducts the initial evaluation within 45 school days of receiving parent/guardian consent for evaluation unless:

- a. The district and the parent/guardians agree in writing to extend the timeline for an evaluation to determine eligibility for specific learning disabilities;
- b. The child moves from another district during the evaluation, the district is making sufficient progress to ensure a prompt completion of the evaluation, and the parent/guardian and the district agree in writing to a specific time when the evaluation will be completed; or
- c. The parent/guardian repeatedly fails or refuses to produce the child for evaluation.

#### 4. Re-evaluation

##### a. The district conducts re-evaluations:

- (1) When the educational or related services needs, including improved academic achievement and functional performance of the child, warrant an evaluation;
- (2) When the child's parent/guardians or teacher request a re-evaluation; and
- (3) At least every three years, unless that parent/guardian and the district agree that a re-evaluation is unnecessary.

##### b. The district does not conduct re-evaluation more than once a year, unless the parent/guardian and district agree otherwise.

#### 5. Evaluation Planning

##### a. The district, or designated referral and evaluation agency for preschool children, ensures that, as part of an initial evaluation (if appropriate), the child's Individual Education Plan (IEP) team, including the parent/guardians and other qualified professionals, as appropriate, review and document their review of existing evaluation data on the child including:

- (1) Evaluations and information provided by the child's parent/guardians;
- (2) Current classroom-based, local or state assessments and classroom-based observations; and
- (3) Observations by teachers and related service providers.

##### b. On the basis of that review and input from the child's parent/guardians, identify what additional data if any is needed to determine:

- (1) Whether the child has a disability;
- (2) The child's present levels of academic achievement and related development needs;
- (3) Whether the child needs or continues to need special education and related services; and
- (4) For re-evaluation, whether the child needs any additions or modifications to the special education and related services or, for a preschool child, any additions or modification to Early Childhood Special Education (ECSE) services:
  - (a) To enable the child to meet the measurable annual goals in the child's IEP; and
  - (b) To participate, as appropriate, in the general education curriculum or, for preschool children, appropriate activities.

#### 6. Evaluation Procedures

##### a. The district assesses the child in all areas related to the suspected disability, including, if appropriate, health, vision, hearing, social and emotional status, general intelligence, academic performance, communicative status and motor

abilities.

b. The evaluation is sufficiently comprehensive to identify all of the child's special education and related needs, whether or not commonly linked to the disability category in which the child has been classified.

c. The evaluation includes information provided by the parent/guardian and a variety of assessment tools and strategies to gather relevant functional, developmental and academic information about the child that assist in determining:

- (1) Whether the child has a disability; and
- (2) The content of the child's IEP, including information related to enabling the child to be involved in and progress in the general education curriculum (or for a preschool child, to participate in appropriate activities).

d. The district ensures that assessments and other evaluation materials, including those tailored to assess specific areas of educational need, used to assess a child:

- (1) Are selected and administered so as not to be discriminatory on a racial or cultural basis;
- (2) Are provided and administered in the child's native language or other mode of communication and in the form most likely to yield accurate information on what the child knows and can do academically, developmentally and functionally, unless it is clearly not feasible to do so;
- (3) Are used for the purposes for which the assessments or measures are valid and reliable;
- (4) Are administered by trained and knowledgeable personnel; and
- (5) Are administered in accordance with any instructions provided by the producer of the assessments.

e. The district selects and administers assessments to ensure that if an assessment is administered to a child with impaired sensory, manual or speaking skills, the assessment results accurately reflect the child's aptitude or achievement level or whatever other factors the test purports to measure, rather than reflecting the child's impaired sensory, manual or speaking skills (unless those skills are the factors that the test purports to measure).

f. The district uses technically sound instruments that may assess the relative contribution of cognitive factors and behavioral factors in addition to physical or developmental factors.

g. The district does not use any single measure of assessment as the sole criterion for determining whether a child is a child with a disability and for determining an appropriate educational program for the child.

## 7. Requirements if Additional Evaluation Data is not Needed to Determine Eligibility

- a. If the child's IEP team determines that no additional data is needed to determine whether or not the child is or continues to be a child with a disability, and to determine the child's educational and developmental needs, the district provides prior written notice of that decision, the reasons for it, and the right of parent/guardians to request an assessment.
- b. When the IEP team determines that no additional data is needed to determine eligibility, the district does not conduct an assessment of the child unless requested to do so by the parent/guardians.

## 8. Evaluation Procedures for Transfer Students

When a child with disabilities transfers from one district to another district in the same school year, the district coordinates with the previous district to complete any pending assessment as quickly as possible.

## 9. Eligibility Determination

- a. Once evaluation is completed, the district designates an eligibility team to determine whether the child is eligible for special education services.
- b. This team includes:
  - (1) Two or more professionals, one of whom will be knowledgeable and experienced in evaluating and teaching students with the suspected disability; and
  - (2) The student's parent/guardian(s).
- c. For consideration of eligibility in the area of specific learning disabilities, the district eligibility team includes:
  - (1) A group of qualified professionals and the parent/guardian;
  - (2) The child's regular classroom teacher or, if the child does not have a regular classroom teacher, a regular classroom teacher qualified to teach a child of his or her age, or for a child of less than school age, a preschool teacher; and
  - (3) A person qualified to conduct individual diagnostic examinations of children, such as a school psychologist, speech-language pathologist or other qualified professional.
- d. In interpreting evaluation data, each district team carefully considers and documents information from a variety of sources, including but not limited to, aptitude and achievement tests, teacher recommendations, physical condition, social or cultural background and adaptive behavior and all required elements of the evaluation.
- e. Each eligibility team prepares a written eligibility statement that includes:
  - (1) Identification of the evaluation data considered in determining the child's eligibility, including the required evaluation components for the disability under consideration;
  - (2) A determination of whether the child meets the minimum evaluation

criteria for one or more of the disability categories in New Hampshire law;

(3) A determination of whether the primary basis for the suspected disability is:

(a) A lack of appropriate instruction in reading (including the essential components of reading) or math; or

(b) Limited English proficiency.

(4) A determination of whether the child's disability has an adverse impact on the child's educational performance;

(5) A determination of whether, as a result of the disability, the child needs special education services;

(6) The signature of every team member and an indication of whether each agrees with the eligibility determination;

(7) For a child suspected of having a specific learning disability, the team's written report includes additional specific documentation as required by New Hampshire Administrative Rule.

f. The team does not find a child eligible as a child with a disability if the determinant factor for that eligibility decision is:

(1) Lack of appropriate instruction in reading, including the essential components of reading instruction or lack of appropriate instruction in math; or

(2) Limited English proficiency; and

(3) The child does not otherwise meet the eligibility criteria found in New Hampshire law for the category(ies) of disability under consideration.

g. The team finds a child eligible if the child has a disability and needs special education and related services, even though the child is advancing from grade to grade.

h. A child may have disabilities in more than one disability category, but the team needs to find the child eligible in only one category. However, the district evaluates the child in all areas related to the suspected disability or disabilities, and the child's IEP addresses all of the child's special education needs.
