This would be used for non-fiction informational text standards

Cite textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text.

Determine a central idea of a text and how it is conveyed through particular details; provide a summary of the text distinct from personal opinions or judgments.

Analyze in detail how a key individual, event, or idea is introduced, illustrated, and elaborated in a text (e.g., through examples or anecdotes).

##### Science: [Physical Science Middle School Curriculum - 6th, 7th or 8th NGSS Aligned](#)

Created by Self-Paced Science

### ● 7th -

- a. new class set of “The Giver” books. 20 copies of Lois Lowry’s “The Giver.”
- b. Chris would like to see if we could get a new 7th grade World Geography Textbook and Resource Kit. What we have now is outdated and lacks a comprehensive resource kit. I would consider an electronic standards based textbook series as long as it's user friendly and easily navigated and accessible. Please let me know what I need to do to facilitate this purchase.

- c. Coleen would like new calculators since she is down to 10. I need a new set that was not accounted for, if there is money. They run about \$150 a set of 10.
- d. 8th -
  - 22 touchscreen chromebooks so the 8th grade math teacher can attempt to use less paper. Cam T suggested the chromebooks that were purchased for Title 1 because those are the ones that have lasted the longest. (I will add more details after I get them this week).
- e. UA -
  - Nasco Deluxe Color Coded Kitchen Kits \$520 each, six sets for a total of **\$3,120**
  - Le Prix Stainless Flatware set, color coded \$69.99 each, six sets for a total of **\$419.94**
  - **Justification: Color coded kitchen supplies that will make it easier to differentiate stations and keep students organized as they prepare recipes in class. The kits include 52 pieces.**
  - Total: \$3,700 (estimated)
