- Building Responsible Learners - The faculty work collaboratively in teams as well as together to develop supports that we hope will have all students to master the knowledge and skills to be successful in all their course work in all four grade levels. Some of the items identified is the requirement that all assignments are to be completed on time and done accurately. Updating the summative retake procedure with a focus on satisfactory completion of summatives for those who don't demonstrate mastery. Creating a more uniform grading practice across all grades and all teams.
