F. New/Revised Policies - First Reading _____ Discussion

[FAA Annual Facility Plan and Unused District Property](#) (New)

Policy notes from NHSBA: “NHSBA history: Revised - September 2023; New policy – September 2021.

***NHSBA notes, September 2023**, substantial revisions to the former version, including a change to the title. Most importantly, policy was expanded to include specific provisions relating to statutory rights charter schools have to school district property when the district is neither using the property and has no plan to use it within two years. Because of the significance and legal complexity of how the charter school rights impact district property interests, we have included much of the statutory language. **September 2021**, This Sample Policy was developed to encourage districts to maintain annual records of facilities and usage, and to provide for organized long-term planning and efficiency in facility use. It also accounts for new statutory obligations germane to unused facilities lacking in an official plan pursuant to RSA 194:61, as effected in HB 278. Under RSA 194:61, the District is required to submit a list of “unused facilities” to the DOE no later than January 1, 2022, and updated plans each July 1 thereafter.”*

[EG Capital Improvement Plan](#) (Revised and Recoded)

The policy committee recommends the addition of the wording in red from the NHSBA sample policy. From NHSBA: “...sample revised to reflect passage of HB365 which amended RSA 198:15-a, V, to include language recommending that school districts provide “long-range capital improvement programs” to the DOE every 2 years. Revisions to the sample policy include a change in the title, addition of section lettering, and addition of Section C relative to the preparation of capital improvement plans (“CIP”). (Note, the information to be transmitted to DOE relates to a “capital improvement program”, the use of “capital improvement plan” in this policy is intended to call attention to the fact that a District’s plan may be - should be - more comprehensive than the “program” that is to be reported to DOE.)”
