

Raymond School District Policy - ~~JLGG/EIF~~ JLCF
WELLNESS POLICY

The Board recognizes the importance of proper nutrition and developmentally appropriate physical activity as ways of promoting healthy lifestyles, minimizing childhood obesity, and preventing other diet-related chronic diseases. The Board also recognizes that health and student success are interrelated. It is, therefore, the goal of the Board that the learning environment positively influences a student's understanding, beliefs, and habits as they relate to good nutrition and physical activity.

This policy outlines the District's approach to ensuring environments and opportunities for all students to practice healthy eating and physical activity behaviors throughout the school day while minimizing commercial distractions. This policy applies to all students, staff and schools in the District.

I. DISTRICT WELLNESS COMMITTEE.

The Superintendent, in consultation with the Director of School Nutrition Services, will facilitate development of updates to the District Wellness Policy, subject to School Board approval, and will oversee compliance with the policy. In addition, the Superintendent shall designate a Building Wellness Coordinator for each school to help ensure compliance with this policy at the building level.

The Superintendent shall convene a representative "District Wellness Committee" (or "Wellness Committee"), whose functions will include review and recommendations regarding implementation of and updates to this policy, and establishment of specific goals for nutrition promotion, education and physical activity.

The Superintendent or his/her designee shall serve as the Chairperson of the District Wellness Committee, and shall maintain an updated roster of Building Wellness Coordinators and other persons serving on the Committee.

The District Wellness Committee shall meet no less than three times per school year.

The District Wellness Committee should represent each school and the diversity of the community, and to the extent feasible include the Superintendent or her/his designee, the Director of School Nutrition Services, each Building Wellness Coordinator, parents, students, physical education teachers, health education teachers, school counselors, school administrators, a school board member, outside health professionals, individual school building representatives, and members of the public.

Staff appointments to the Wellness Committee will be made by the Superintendent. The School Board Chair shall appoint the School Board member. Remaining members, other than those who are ex officio, shall be volunteers approved by the Wellness Committee.

As a statutory committee, the Wellness Committee shall comply with the requirements of RSA 91-A regarding meetings.

II. WELLNESS POLICY IMPLEMENTATION, MONITORING, ACCOUNTABILITY AND COMMUNITY ENGAGEMENT.

A. Implementation Plan.

Each Building Wellness Coordinator, with the assistance of the Wellness Committee, will conduct a school level assessment based on the Centers for Disease Control and Prevention's School Health Index, using tools available through such programs as the Alliance for a Healthier Generation *Healthy Schools Program*,

and to create an action plan and generate an annual progress report. The school-level assessment/report should be completed by September 30th of each school year and provided to the Superintendent.

B. Annual Notification of Policy.

The District will annually inform families and the public of basic information about this policy, including its content, any updates to the policy, and implementation status. The District will make this information available via the district website. This information will include the contact information of the District official(s) chairing the Wellness Committee (i.e., the Superintendent or his/her designee) and any Building Wellness Coordinator(s), in addition to on how the public can get involved with the District Wellness Committee.

C. Triennial Progress Assessments.

Every three years, the Director of School Nutrition Services will assess:

§ The extent to which each of the District's schools are in compliance with the wellness policy;

§ The extent to which the District Wellness Policy compares to model wellness policies; and

§ A description of the progress made in attaining the goals of the District's Wellness Policy.

The Wellness Committee will make recommendations to update the District Wellness Policy based on the results of the annual School Health Index and triennial assessments and/or as District priorities change; community needs change; wellness goals are met; new health science, information, and technology emerges; and new Federal or state guidance or standards are issued. The Board will review and act upon such assessments as required or as the Board deems appropriate.

D. Recordkeeping.

The Superintendent will retain records related to this Policy, to include at least the following:

- The District Wellness Policy;
- The most recent assessment on the implementation of the local school wellness policy;
- Documentation on how the District Wellness Policy and Policy assessments are/were made available to the public;
- Documentation confirming annual compliance with the requirement that District Wellness Policy, including updates, and the most recent assessment on the implementation of the Policy have been made available to the public; and
- Documentation of efforts to review and update the District Wellness Policy; including who is/was involved in each update and methods the District uses to make stakeholders aware of opportunities to participate on the District Wellness Committee.

E. Community Involvement, Outreach and Communications.

The District will communicate ways in which representatives of DWC and others can participate in the development, implementation and periodic review and update of the wellness policy through a variety of means appropriate for that district. The District will also inform parents/guardians of the improvements that have been made to school meals and compliance with school meal standards, availability of child nutrition programs and how to apply, and a description of and compliance with Smart Snacks in School nutrition standards.

III. **NUTRITION.**

A. School Meals.

All schools within the District participate in USDA child nutrition programs, including the National School Lunch Program (NSLP) and the School Breakfast Program (SBP). District schools are committed to offering school meals that:

- Are accessible to all students;
- Are appealing and attractive to children;
- Are served in clean and pleasant settings;
- Promote healthy food and beverage choices; and
- Meet or exceed current nutrition requirements established by local, state, and Federal statutes and regulations. The District offers reimbursable school meals that meet USDA nutrition standards, which may be found at:

<https://www.fns.usda.gov/school-meals/nutrition-standards-school-meals>

B. Staff Qualifications and Professional Development.

All school nutrition program directors, managers and staff will meet or exceed hiring and annual continuing education/training requirements in the USDA professional standards for school nutrition professionals, which may be found at:

<https://www.fns.usda.gov/school-meals/professional-standards>

C. Water.

To promote hydration, free, safe, unflavored drinking water will be available to all students at every school throughout the school day, including mealtimes and at all places and times that school meals are served mealtimes, at every school.[2]

Students shall be permitted to bring water bottles to school that:

- (1) Are made of material that is not easily breakable;
- (2) Have lids to prevent spills; and
- (3) Are filled exclusively with water

School Principals may discipline students for the misuse of water bottles, consistent with Board policy JICD.

D. Competitive Foods and Beverages and Marketing of Same in Schools.

“Competitive foods and beverages” (i.e., foods and beverages sold and served or marketed during the school day, but outside of the school meal programs) must meet the USDA Smart Snacks in School nutrition standards, which may be accessed at:

<https://www.fns.usda.gov/school-meals/smart-snacks-school>

These standards will apply in all locations and through all services where foods and beverages are sold, which may include, but are not limited to, à la carte options in cafeterias and vending machines.

Except as may be provided elsewhere in this Policy, any foods and beverages marketed or promoted to students on the school campus during the school day will meet or exceed the USDA Smart Snacks in School

nutrition standards. Food and beverage marketing is defined as advertising and other promotions in schools, including, but is not limited to:

- Brand names, trademarks, logos or tags, except when placed on a physically present food or beverage product or its container.
- Displays, such as on vending machine exteriors.
- Corporate brand, logo, name or trademark on school equipment, such as marquees, message boards, scoreboards or backboards (*note*: immediate replacement of these items are not required; however, districts will replace or update scoreboards or other durable equipment when existing contracts are up for renewal or to the extent that is financially possible over time so that items are in compliance with the marketing policy.).
- Corporate brand, logo, name or trademark on cups used for beverage dispensing, menu boards, coolers, trash cans and other food service equipment; as well as on posters, book covers, pupil assignment books or school supplies displayed, distributed, offered or sold by the District.
- Advertisements in school publications or school mailings.
- Free product samples, taste tests or coupons of a product, or free samples displaying advertising of a product.

Corporate brand names, logos, and trademarks for companies that market products that comply with the USDA Smart Snacks in School nutrition standards will not be prohibited because they offer some non-compliant food or beverage items in their product line. Likewise, the marketing restrictions do not apply to clothing or other examples of expression which include brand information for non-compliant food or beverage items.

As the District, school athletic department, and parent teacher associations review existing contracts and consider new contracts, equipment and product purchasing (and replacement) decisions should reflect the applicable marketing guidelines established by the District wellness policy.

E. Celebrations and Rewards.

All foods offered during the school day on the school campus will meet or exceed the USDA Smart Snacks in School nutrition standards. Foods and beverages will not be used as a reward or withheld as punishment for any reason. The District's School Nutrition Services will make available a list of healthy party ideas to parents and teachers, including non-food celebration ideas, and a list of foods and beverages which meet Smart Snack nutrition standards.

F. Food Sale Fundraising.

Foods and beverages that meet or exceed the USDA Smart Snacks in Schools nutrition standards may be sold through fundraisers on the school campus during the school day. Fundraising groups are encouraged to choose non-food fundraisers, and to consider healthy fundraising ideas. Notwithstanding this provision, each school may allow up to nine bake sales or other fundraising food sales of non-compliant foods (i.e., that do not meet Smart Snack standards), which are no more than one day in duration each.

G. Nutrition Promotion.

The District will promote healthy food and beverage choices for all students throughout the school campus, as well as encourage participation in school meal programs. This promotion will include.

- Implementation of at least ____ or more evidence-based healthy food promotion techniques in the school meal programs using methods included in the Smarter Lunchroom Movement, which may be found at:

<https://www.smarterlunchrooms.org/scorecard-tools/smarter-lunchrooms-strategies>

- Ensuring 100% of foods and beverages promoted to students during the school day meet the USDA Smart Snacks in School nutrition standards. Additional promotion techniques that the District and individual schools may use are available through the Smart Food Planner of the Alliance for a Healthier Generation, available at:

<https://www.healthiergeneration.org/our-work/business-sector-engagement/improving-access-to-address-health-equity/smart-food-planner>.

H. Nutrition Education.

The District will teach, model, encourage and support healthy eating by all students.

- Nutrition education shall be included in the health curriculum so that instruction is sequential and standards-based and provides students with the knowledge, attitudes, and skills necessary to lead healthy lives.
- Nutrition education posters will be displayed in each school cafeteria.
- Consistent nutrition messages shall be disseminated throughout the school.

Schools should provide additional nutrition education that:

- Is designed to provide students with the knowledge and skills necessary to promote and protect their health;
- To the extent practicable is integrated into other classroom instruction through subjects such as math, science, language arts, social sciences and elective subjects;
- May include enjoyable, developmentally-appropriate, culturally-relevant and participatory activities, such as cooking demonstrations or lessons, promotions, taste-testing, farm visits and school gardens;
- Promotes fruits, vegetables, whole-grain products, low-fat and fat-free dairy products and healthy food preparation methods;
- Emphasizes caloric balance between food intake and energy expenditure (promotes physical activity/exercise);
- Links with school meal programs, cafeteria nutrition promotion activities, school gardens, Farm to School programs, other school foods and nutrition-related community services;
- Teaches media literacy with an emphasis on food and beverage marketing; and
- Includes nutrition education training for teachers and other staff.

a. PHYSICAL ACTIVITY.

The District will provide physical education consistent with national and state standards. Physical activity during the school day (including but not limited to recess, classroom physical activity breaks or physical education) **will not be withheld** as punishment for any reason.

A. Classroom Physical Activity Breaks.

In addition to any recess periods provided in the ordinary daily schedule, students will be offered **periodic opportunities** to be active or to stretch throughout the day. The District recommends teachers provide short (3-5 minute) physical activity breaks to students during and between classroom time at least three days per week. These physical activity breaks will complement, not substitute, for physical education class, recess, and class transition periods.

B. Before and After School Activities.

The District offers opportunities for students to participate in physical activity after school through interscholastic and intramural sports and clubs.

C. Walking and Biking to School.

The District will support walking or biking to school by students or faculty only if determined safe by the building principal.

IV. OTHER ACTIVITIES TO PROMOTE STUDENT WELLNESS.

The District will endeavor to integrate wellness activities across the entire school setting, not just in the cafeteria or physical education and athletic facilities. In furtherance of this objective, each school in the District will identify a list of physical activities with a requirement to engage in one or more each school year.

V. PROFESSIONAL LEARNING.

When feasible, the District will offer annual professional learning opportunities and resources for staff to increase knowledge and skills about promoting healthy behaviors in the classroom and school (e.g., increasing the use of kinesthetic teaching approaches or incorporating nutrition lessons into math class).

~~The Raymond School Board recognizes the importance of proper nutrition and developmentally appropriate physical activity as ways of promoting healthy lifestyles, minimizing childhood obesity, and preventing other diet related chronic diseases. The Board also recognizes that health and student success are interrelated. It is, therefore, the goal of the Board that the learning environment be aligned to positively influence a student's understanding, beliefs, and habits as they relate to good nutrition and physical activity.~~

Goals:

- ~~1. The District shall teach, encourage, support, and model healthy eating habits for students.~~
- ~~2. The District shall teach, encourage, support, and model age-appropriate daily physical activity.~~
- ~~3. The District shall educate students, employees, school board, and community members to the important benefits of a healthy lifestyle.~~
- ~~4. The schools shall comply with the nutrition guidelines outlined in this policy in a manner designed to facilitate the adoption of healthier eating habits.~~

Nutrition Guidelines:

~~The Raymond School District's nutritional standards are based upon standards established under the Healthy, Hunger Free Kids Act of 2010 (HHFKA) and its subsequent revisions. These nutrition guidelines, apply to all foods available to students on school grounds during the school day from midnight of the previous day until a minimum of 30 minutes after the final bell, including but not limited to: the school lunch and breakfast program; foods and beverages sold in vending machines/school stores and as part of classroom lessons/activities; parties; celebrations; or fundraising efforts. As needed, the Wellness Committee will request that the Superintendent notify the School Board regarding any changes that have occurred in federal and state nutrition guidelines that need to be reflected in this policy.~~

~~A. School Meals: School Meals served in the District shall meet or exceed the nutrition requirements established by the USDA under HHFKA, its laws, and regulations. Administration of the school meal program will be by qualified school food service staff. School lunches and breakfast programs will offer a variety of foods and choices for students. Nutritional information about school meals will be available upon request. Menus will be available on the school website, in the cafeterias, and other appropriate school media.~~

~~B. Free and Reduced Meals: Eligibility for and distribution of free and reduced priced meals will be provided with confidentiality in accordance with state and federal requirements.~~

~~C. Breakfast & Lunch: In order to meet the nutritional needs of children and enhance their ability to learn, the Raymond School District will provide a breakfast program as well as lunch.~~

~~D. Meal Times and Scheduling: Schools whenever possible:~~

- ~~1. Shall ensure students have sufficient time to eat breakfast and lunch in accordance with the HHFKA.~~
- ~~2. Shall not schedule tutoring, club, or organizational meetings/activities during mealtimes, unless students may eat during such activities.~~

~~E. Food Sales: All food items available through schools and school functions should meet or exceed nutritional standards established by the HHFKA and its "Smart Snack" guidelines.~~

- ~~1. Elementary Schools: The school food service program will approve and provide all food and beverage sales to students in elementary schools. Foods in elementary school are sold only as balanced meals with the exception of milk, which can be purchased separately.~~
- ~~2. Middle and High Schools: In middle and high school, all foods and beverages sold individually outside the reimbursable school meal programs (including those sold through a la carte [snack] lines, vending machines, fundraising, etc.) to students during the school day will meet the standards set under HHFKA and Smart Snack criteria.~~

~~F. Fundraising Activities: To support children's health and school nutrition education efforts, school sponsored fundraising activities (direct school affiliation) should include foods that qualify under HHFKA and Smart Snack criteria. The Alliance for a Healthier Generation's "Smart Snack Calculator" and the Food Service Director may be used as resources for determining qualifying items. Schools will encourage fundraising activities that promote physical activity. The school district will make available a list of ideas for acceptable fundraising activities.~~

~~G. Rewards: Schools will not use foods or beverages as rewards for academic performance or good behavior, and will not withhold food or beverages (including food served through school meals) as a punishment.~~

~~H. Snacks/Lunches: Snacks served during the school day or in after school care or enrichment programs will make a positive contribution to children's diets and health, with an emphasis on serving fruits and vegetables or Smart Snack qualifying items as the primary snacks, and water as the primary beverage.~~

Students are discouraged from bringing unhealthy foods or beverages to school for either snack or lunch. Examples of these are any soda, high-calorie/caffeinated energy drinks and food items that are high in sugar, fat or sodium content.

Schools will assess if and when to offer snacks based on timing of school meals, children's nutritional needs, children's ages, and other considerations. The district will disseminate a list of healthful snack items and the Smart Snack Calculator link to teachers, after school program personnel, and parents.

I. School Store: Food and beverage items sold in the school store will meet guidelines of this policy. Food items in the school store will not be sold when the school food services program is open for sale. (Food items available after lunch and after school.) Food items being sold in the school store will also be subject to the competitive foods standards. The sale of competitive food to students will be prohibited from the midnight before, to 30 minutes after the end of the official school day, or what may be considered the instructional day.

J. Celebrations: Schools should limit celebrations that involve food during the school day. Each party should include no more than one food or beverage that does not meet nutrition standards under Smart Snacks and HHFKA. The district will disseminate a list of healthy party ideas to parents and teachers. Subject area lessons involving food preparation should follow nutritional guidelines as part of the instruction of the lesson.

School staff involved in homeroom, field trips and classroom food-related events will communicate with school food services managers to assist with nutritional planning and reducing food waste.

K. Classroom Activities: Schools shall discourage the use of food items for instructional purposes unless as part of the course curriculum. This is especially the case for those food items that do not meet the nutritional standards for foods as outlined in this policy.

Nutrition Guidelines for Reimbursable School Meals:

In no circumstances will the guidelines for reimbursable school meals be less restrictive than the regulations and guidance issued by the US Secretary of Agriculture as applicable to schools. Foods should be served with consideration toward variety, appeal, taste, safety, and packaging to ensure that students will participate in consuming high-quality meals.

Plan for the Established Committee to Measure Implementation:

The School Board instructs the Superintendent to establish procedures for implementation of this policy that include targets in support of the goals set forth in this policy. Annual notification of the Wellness Policy will go out each November via the Community Newsletter and an announcement on the District Website Homepage. Each Building Principal is charged with the operational responsibility for ensuring that their school follows the guidelines set forth in this policy and implements strategies for achieving the targets set forth in the procedures established by the Superintendent. The Wellness Committee will periodically assess the nutrition and physical activity environment throughout the District and provide input to each Building Principal and the Superintendent regarding progress on the current targets, recommend any new targets, and identify strategies in support of the goals stated in this policy. The Superintendent and Building Principals will decide upon the targets and strategies in support of the goals stated in this policy. Progress reports will be provided to the School Board once per year. Additionally, the Wellness Committee will determine two measurable goals each year to assess development and implementation of for the following school year. The Committee will review the policy every three years and recommend updates or modifications as appropriate.

Community Involvement:

~~The Board will establish a Wellness Committee. The Committee will be appointed by the Superintendent. The Committee will consist of a group representing parents, students, the school's food service program, the School Board, administrators, regular and wellness-related faculty and staff as well as members of the public with wellness-related expertise. The purpose of this advisory Committee is to provide content area expertise and community input.~~
