Much planning is underway in relation to the start of school this year. We are awaiting formal guidance from the Governor and the Department of Health and Human Services, and once that is received we will be working intensely to develop a recommended plan that provides high quality educational experiences for all Raymond students while also safeguarding the health and safety of all students and employees as well as the greater community. This brief presentation provides an overview of our planning processes to date.

- 6:35 PM B. LRES Building Committee Needs Assessment Presentation _ _ _ _ Information

The Building Committee has been meeting monthly to examine the needs of LRES, and work toward a recommendation to the Board by October. At this time, the committee would like to provide an update to help the Board understand the work that has been done to date. We hope this will help give the Board some insight into the work of the

committee and the many types of considerations that must be taken into account. Architect Kyle Barker will be at the meeting to present, and Committee Chair Ken Hajjar will also have some remarks on behalf of the committee.

The two videos will not be played during the meeting, but they are here for your review in advance of the meeting to add more background to the report.

7:05 PM C. Strategic Plan Update _____ Action

Each year, the District revisits the Strategic Plan to determine if adjustments are warranted in light of changing circumstances and the needs of the District. This year some substantial adjustments are recommended including changes to the mission statement and annual strategies for years four and five of this 5 year plan. The adjustments are in red font with deleted parts noted by ~~strikeout~~. The recommended changes were developed collaboratively by the administrative team and the Strategic Planning Steering Committee.

The Strategic Planning Committee met in June. [Attached please find](#) the proposed updated/adjusted Strategic Plan for consideration and approval.
