Attn: Tina McCoy, Superintendent of Schools

**RE: LAMPREY RIVER ELEMENTARY SCHOOL
BUILDING NEEDS ASSESSMENT - ADDITIONAL SERVICES**

Dear Ms. McCoy,

In response to a request by the Building Committee this is a proposal for additional design services related to the Lamprey River Elementary School Building Needs Assessment Study.

The study is reaching conclusion and two potential recommendations are being equally considered: 1) Additions and Renovations to LRES, 2) New Construction on a new site. The Committee feels the need for more information to adequately assess the differences between the two options. I have been asked to prepare conceptual designs so that the Committee can more easily visualize how well each will work. I propose to perform the following services:

- Prepare a conceptual floor plan and site plan for the additions and renovations to LRES.
- Prepare a conceptual floor plan and site plan using the land that is part of the Raymond High School site.
- Prepare bond estimates and Life-Cycle Cost Analysis for each option.

I propose a fee of **Five Thousand dollars (\$5,000)** for this effort. I estimate the amount of time needed to be approximately 40 hours and can complete the work within one calendar month of a notice to proceed. I am available to begin immediately.

Thank you again for your consideration. If you have any questions whatsoever please do not hesitate to call my cell phone; (603)731-7796 anytime.

Sincerely,

A handwritten signature in blue ink that reads "Kyle G. Barker".
