FFVP

We are currently serving all students a fresh fruit or vegetable snack 4 days a week. We were able to use some of the funds to purchase a Robo Coupe Slicer which helps speed the prep time and saves money on prepackaged items.

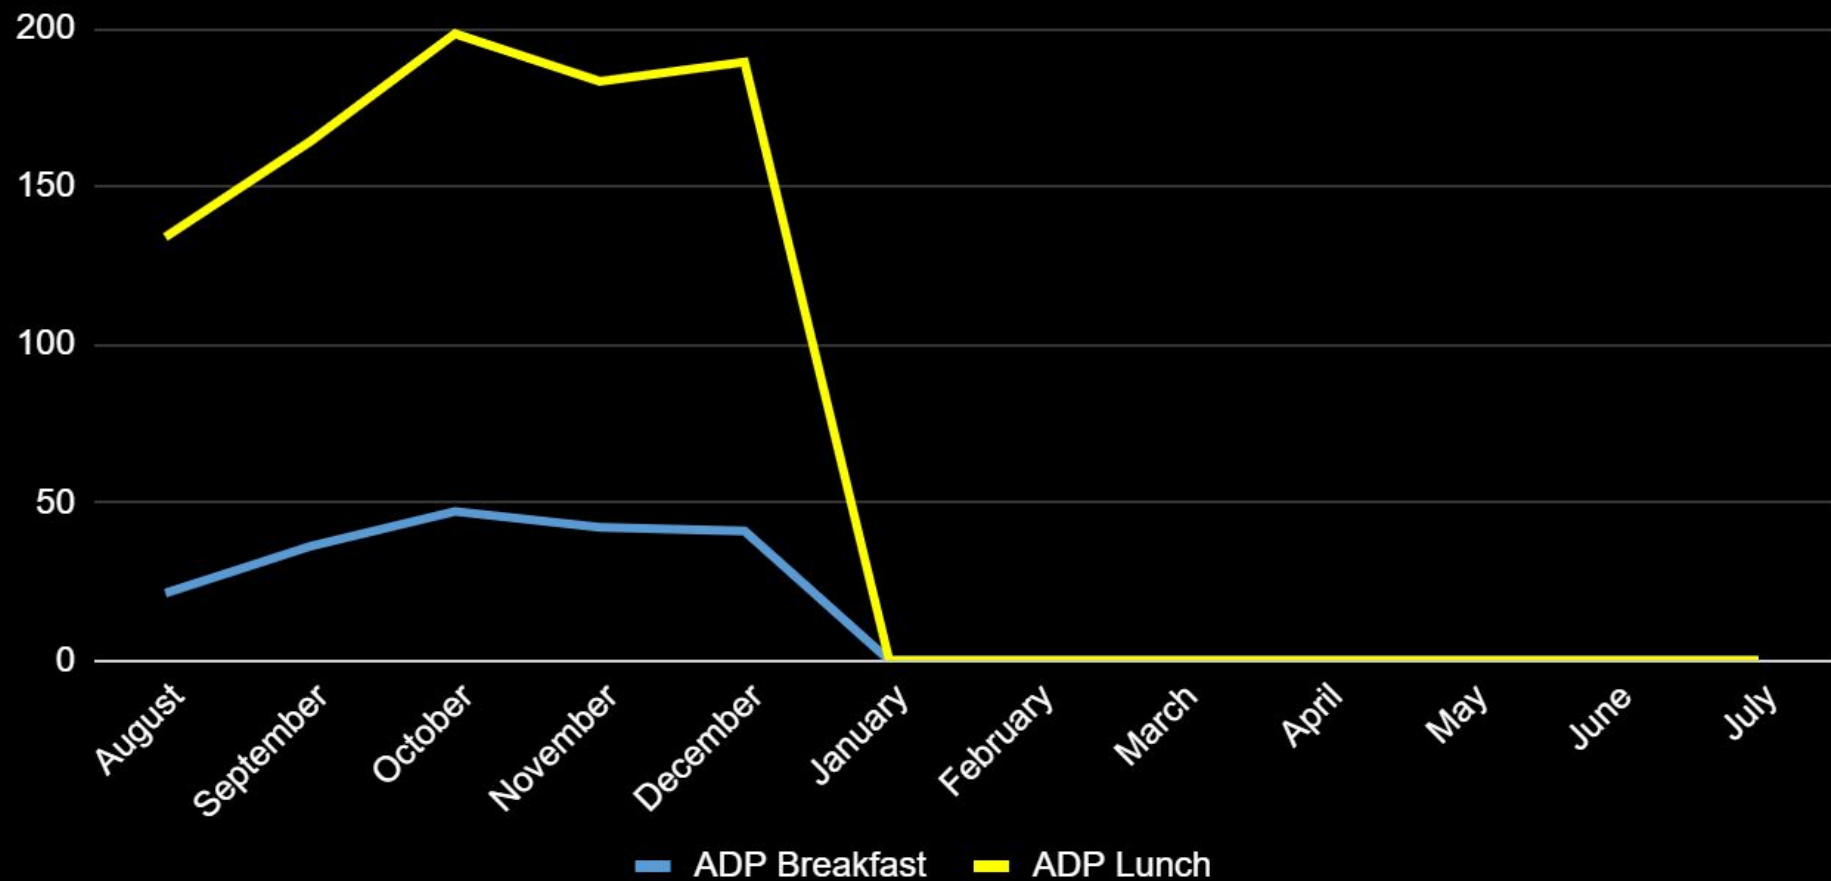

Classroom Party Snacks

Sales have been most popular at the Elementary level.

Exploring other Revenue Options

We are making a plan to begin offering ice cream weekly to the Elementary School students. We hope to begin sales in February.

New Menu Items

After attending the open houses at the start of the year and hearing student feedback, I learned that they would like to try the Asian dumplings that are served at the High School. This was included on the January Menu.

Munchables

We now offer a variety of cold Munchable options including Bagel, Muffin and Yogurt and Make your own Pizza.

New Dishwasher

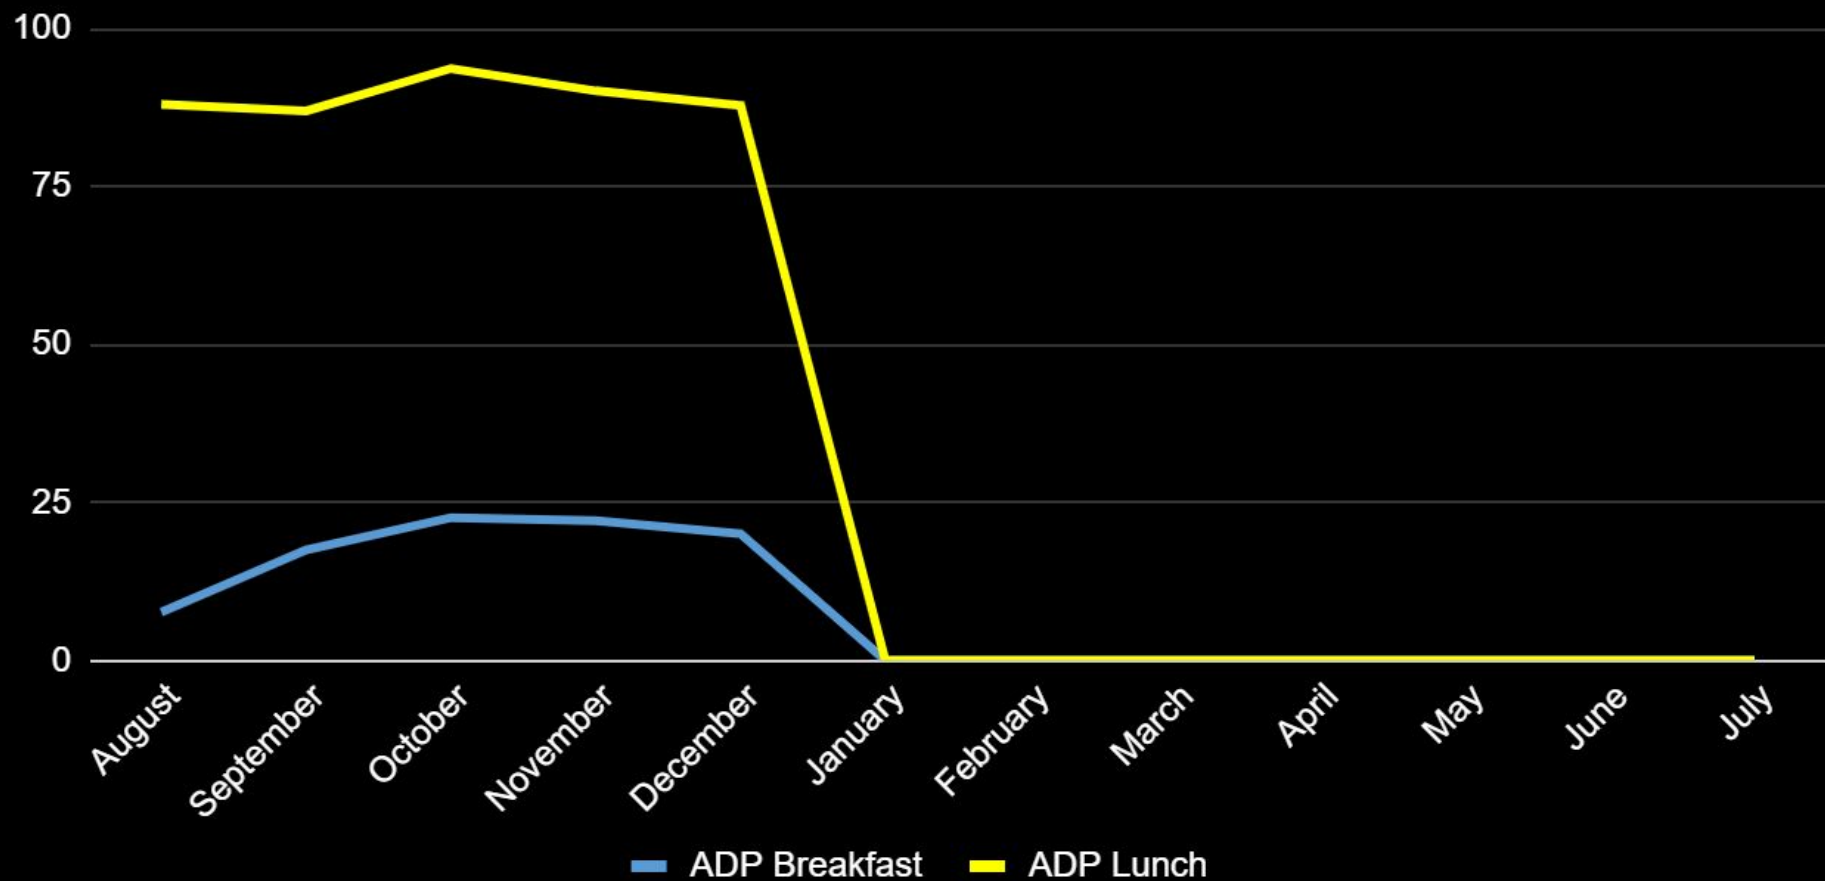

The new dishwasher was installed at the Middle School over break. The new dishwasher has a build in water softener which will help prevent the lime scale build up and extend the machine life.

OLD MACHINE

Exploring New Menu Options

We recently tried Charcuterie Boxes which have been popular lunch option.

Student Engagement Surveys

We have had a few sample days trying to incorporate new ideas for commodity items such as tuna. We collected several photos of unique tuna options and solicited student input. Based on the responses we will be trying deconstructed Asian Tuna bowls and Vegetable Sushi Rolls

Beverage Sales

We have brought in two beverage companies to offer a variety of options. The new Prime vending machine has been very popular and is selling almost as fast as we can order it.
