Typically we go for the lowest bidder, however in this situation that it is not the case. We spent a lot of time reviewing the bids ourselves and with the Pre-K teachers to determine the best option for the students in the program. In regards to Pettinelli & Associates, the playground equipment that they want to put in place, seems like it won't entertain the children for long and are very small. The equipment provided by Gametime is similar in that there does not seem to be enough to keep up to 30 students active. The equipment provided by Ultiplay is more robust with more for students to do. For us, it seems reasonable to spend a little more money and have more to provide for the children.

PRESCHOOL PLAYGROUND @ RAYMOND HIGHSCHOOL

PROPOSAL CREATED BY: PETTINELLI & ASSOCIATES, INC

GAME TIME - Option 2

RAYMOND
HIGH SCHOOL
OPTION 2

| | | |
| | | |

This play equipment is recommended for children ages 2-5.

Soft, resilient surfacing should be placed in the use zones of all equipment, as specified for each type of equipment, and at depths to meet the critical fall heights as specified by the U.S. consumer Product Safety Commission, ASTM standard F 1487 and Canadian Standard CAN/CSA-Z-614.

This unit includes play events and routes of travel designed specifically for special needs users. It is the opinion of the manufacturer that these play events and routes of travel conform to the accessibility requirements of the ADA (American's with Disabilities Act).
