Proposed Resolution for Consideration

Proposed Resolution: To amend NH RSA 91-A:2 III (b) to exclude subcommittees and advisory committees from the requirement for a quorum to be physically present in order to hold a meeting.

Rationale: The small size of some subcommittees means that the requirement for a physical quorum may not be met if even just two members attend remotely. The membership of subcommittees are more varied than an elected School Board. They may often include staff and citizens who are not available to be physically present for a meeting but would be able to participate remotely.
