Re: RFP High School Water Controls **BID**

Dear Tina,

Thank you for the opportunity to provide you with a repair Bid for the Raymond High School Water Booster Pump System Controls. We would be very happy to pursue this further with you. Hampstead Area Water Services, Co. (HAWSCO) has constructed and / or repaired numerous pump stations in the New Hampshire area. Per your request, please see below details and pricing for the Raymond High School Water Booster Pump Controls.

Per the Raymond School District RFP site visit on May 19th and, District responses via email dated May 21st, Hampstead Area Water Services, Co. (HAWSCO) will perform the work with all inclusions below. We will provide all materials, labor, and startup costs as required for the scope noted below.

RFP High School Water Controls

- Per RFP High School Water Controls we will perform the following.
- Coordinate work schedule with Raymond High School Facilities Director.
- Demo and dispose of old controls, only house well controls to remain.
- Provide and install two new Yaskawa Pump IQ VFD's sized for existing pumps.
- Provide and install Pressure transducers and low suction cutout switches.
- Provide and install new silent wafer style check valves.
- Leave existing hydro tanks in place to provide more off time at low flow periods.
- Provide and install red alarm light for local panel mount for VFD alarms.
- Program VFD's with a setpoint of 55 PSI, lead / lag alternation operation with PID Sleep function.
- Fully test and tune system controls and provide operator training as required.

“Serving the Water Community for more than 40 years.”

Total price for above listed work:
\$15,904.00

Please visit our website www.nhwaterservices.com for a portfolio of recent work.

If you have any questions or comments, please contact me at 603-362-1921 or by email at eric.murphy@lewisbuilders.com

Sincerely,
