October 2020

Technology status

Update

Professional Development days have gone Hybrid!

While students are hybrid so are our Professional Development offerings

The Technology Department will build out a Google site for every PD day

20/21 Technology Training to date

Clone Yourself & Multiply the Learning with Screencasting

Lead by FriEd Technology

8:30 - 9:30 (Q&A 9:30 - 10:00)

Screencasting is a generic name for the technique of recording your screen along with your voice. This technique has become the standard for teaching technical skills or giving directions to anyone, anywhere. Whether it's a necessary task with lots of steps or directions for students, reaching out to connect with your students during social distancing, or for your students to show you what they know, learning how to screencast will open a WORLD of possibilities!

Jamming with Jamboard

12:30 - 1:30 (Q&A 1:30 - 2:00)

Whether teaching in-person or virtually, Jamboard is an awesome tool for teachers and students alike! This collaborative whiteboard stands alone as an interactive experience and integrates directly into Google Classroom so teachers and students can work together in a creative learning space. Use the app for more advanced features or stick to the web version in your Google Drive, but either way you'll be wowed by the way learning is transformed with Jamboard.

Unified Classroom Training

9:30 - 10:30

facilitated by Mrs. L'Heureux

Google Meet

Attendance survey

Making Thinking Visible with Google Tools and Digital Interactive Notebooks

Lead by FriEd Technology

2:00 - 3:00 (Q&A 3:00 - 3:30)

No paper, scissors, folders, or glue? No problem! Create an engaging interactive notebook that encourages students to make their thinking visible. In this session, learn how to use Google Slides and other multimedia tools to create templates for students' DIGITAL interactive notebooks for any grade level or subject.

Google Classroom Beyond the Basics

Lead by FriEd Technology

10:00 - 11:00 (Q&A 11:00 - 11:30)

You know how to use Google Classroom, observe students working live, grade and return assignments, and even how to fix common assignment posting mistakes. This Facilitated Online Learning Experience or session is designed to help you bring the most interactive lessons you teach face to face to the digital environment. Let's work together to learn how to make online or blended learning have the characteristics we value most of face to face experiences.

SAU33 and YouTube

All District content is being uploaded to our YouTube Channel. Parent walk throughs for items such as Google Classroom and PowerSchool can be found there.

Getting Chromebooks in the hands of students

Current status of Chromebooks

- All Fully Remote students have devices
- All 6 - 12 grades have devices devices
- Grade 5 is in process of receiving devices this week
- K - 4 We are assessing the needs of the students and plan to give a device to every (in need) K-4 student over the course of the next two weeks. A priority will be given to all students that are in need of a device.
- We have onboarded 293 used Chromebooks from the Concord School District.
- We have 600 new Chromebooks on order from HP. 300 of the 600 are scheduled to arrive November 6th (This date has been pushed 4 times)
- We will have a life cycle breakdown of all devices after the (November 6th) delivery

Streaming solution for the High School is in use
